Introduction

This is the second stage of the application process for Drinking Water State Revolving Fund (DWSRF) assistance. A local government interested in participating should first submit a DWSRF Preapplication Form in order to be listed on the project priority list, which is published in the DWSRF Intended Use Plan (IUP). This application may be submitted with the preapplication or at any time thereafter. We strongly recommend submitting this application within 60 days of the issuance of the ADEM Intended Use Plan, otherwise the project may be moved to the non-fundable list.

Concurrence for the proposed project is required (in writing) from the Alabama Historical Commission, the U.S. Fish and Wildlife Service, Regional Planning Agency, and the U.S. Army Corps of Engineers. Copies of the concurrence letters are required to be included with the application package.

Most drinking water projects will require a construction permit from the Drinking Water Branch of ADEM.

An Environmental Information Document and plans and specifications are required to support each project with respect to technical and environmental matters. Please see the Environmental Information Document outline included in the application package for further guidance. Plans and specifications are required at the time the application is submitted.

Questions regarding the DWSRF Loan Application package should be directed to:

Consulting Engineer's Certification

I hereby give assurance and certify to the Alabama Department of Environmental Management that:

1. All plans and specifications for this project will be prepared in accordance with *ADEM Design Guidance*, April 1998 (or latest version).
2. An Operation and Maintenance (O&M) manual will be prepared for all new treatment works.
3. All contract specifications will contain ADEM Supplemental General Conditions, latest version.
4. A construction permit will be obtained from the Drinking Water Branch of ADEM prior to advertising the project for bidding.
5. No contracts will be awarded before a Project Review and Cost Summary package has been submitted to ADEM for review and issuance of an Approval to Award letter.
6. Unless prior, special arrangements have been made with ADEM, no materials-only contracts will be awarded for payment with DWSRF funds. Under no circumstances will in-kind labor be reimbursed with DWSRF funds.
7. The attached Environmental Information Document has been prepared in accordance with the outline provided in this application.

Resolution Designating Official Representative

WHEREAS, _____
(Legal Name of Applicant: City, Commission, Board etc.)

herein called the "Applicant", after thorough consideration of the various aspects of the problem and study of available data, has hereby determined that the construction of certain works required for the treatment and distribution of drinking water is desirable and in the public interest, and to that end it is necessary that action necessary for the construction of water treatment and/or distribution facilities be taken immediately; and

WHEREAS, under ADEM Administrative Code Chapter 335-11-2, the State of Alabama, has authorized the making of loans to aid in financing the cost of infrastructure needed to achieve/maintain compliance with the Safe Drinking Water Act and to protect/enhance public health objectives of the Act;

NOW, THEREFORE, BE IT RESOLVED BY:

_____ the governing body of said Applicant, as follows:

1. That _____
(Title of Officer)

is hereby authorized to file in behalf of the Applicant an application for a loan to be made by the Alabama Drinking Water Finance Authority;

2. That _____
(Title of Officer)

is hereby designated as the Authorized Representative of the Applicant for the purpose of furnishing to the Alabama Department of Environmental Management (ADEM) such information, data and documents pertaining to the application for a DWSRF loan from the Authority as may be required; and otherwise to act as Authorized Representative of the Applicant in connection with this application.

3. That certified copies of this resolution be included as a part of the application to be submitted to the Department for a loan.

Adopted, this the _____ day of _____, 20____

Certification of Resolution

I, the Undersigned, the duly qualified and acting:

_____ of the _____
(Title of Officer) *(Applicant)*

do hereby certify:

1. That the attached resolution is a true and correct copy of the resolution as adopted by a meeting of the governing body held on the ____ day of _____, 20__ and duly recorded in my office:

2. That said meeting was duly convened and held in all respects in accordance with the law and to the extent required by law, due and proper notice of such meeting was given; and a legal quorum was present throughout the meeting, and a legally sufficient number of members of the governing body voted in the proper manner and for the adoption of said resolution, that all other requirements and proceedings under the law incident to the proper adoption or passage of said resolution, including publication, if required, have been duly fulfilled, carried out, and otherwise observed; and that I am duly authorized to execute this certificate.

IN WITNESS THEREOF, I have herewith set my hand this _____ day of _____, 20_____ .

Statement of Assurances

The applicant, _____, hereby gives assurance and certifies to the Alabama Department of Environmental Management that:

- 1. The Applicant shall maintain its financial records in accordance with generally accepted accounting principles and auditing standards for governmental institutions.
- 2. The applicant shall comply with the requirements of the Water Supply and Construction permit requirements.
- 3. The applicant shall comply with all applicable requirements of Federal, State and local laws.
- 4. The applicant shall pay the unallowable costs of the construction of the project.
- 5. The applicant shall retain a certified water treatment system operator in accordance with ADEM Administrative Code Division 335-10, from the time of the completion of construction or initiation of operation, whichever is earlier, until such time as operation of the facility is discontinued.
- 6. Construction of the project, including the letting of contracts in connection therewith, shall conform to applicable requirements of Federal, State and local laws, ordinances, rules and regulations and to contract specifications and requirements.
- 7. The applicant shall comply with the *ADEM Design Guidance*, January 1998, when designing and constructing the project.
- 8. The applicant shall certify that the project will be initiated and completed in accordance with the schedule specified in the SRF Loan Agreement.
- 9. The applicant must submit proof that it, and its contractors and subcontractors, will comply with all insurance requirements of the Loan Agreement and that it shall be able to certify that the insurance is in full force and effect and that the premiums have been paid.

This form is available at:
<http://www.epa.gov/ogd/forms/forms.htm>

Disadvantaged Business Enterprise (DBE)
Minority Business Enterprise (MBE) / Women’s Business Enterprise (WBE)

The DWSRF program requires all projects to comply with:

- Civil Rights Act of 1964 & 1990
- Executive Order 11246 (Equal Employment Opportunity)
- Executive Order 11625 and 12138 (MBE/WBE)

In compliance with the Federal regulations it is the policy of the DWSRF program to promote a “fair share” of subagreement awards to small minority, and women owned businesses for supplies, equipment, services and construction. Compliance with these contract provisions is required in order for project costs to be eligible for SRF funding. The State has negotiated a MBE/WBE “fair share” objective of:

| | | |
|------------------------|----------|---------|
| Commodities (Supplies) | MBE 4% | WBE 11% |
| Contractual (Services) | MBE 8% | WBE 30% |
| Equipment | MBE 5% | WBE 20% |
| Construction | MBE 2.5% | WBE 3% |

Please note that DBEs, MBEs, and WBEs must be certified by EPA, SBA, or DOT (or by state, local, Tribal, or private entities whose certification criteria match EPA’s). DBEs must be certified in order to be counted toward the recipient’s MBE/WBE accomplishments. Depending upon the certifying agency, a DBE may be classified as a DBE, a Minority Business Enterprise (MBE), or a Women’s Business Enterprise (WBE).

The loan recipient (owner) shall employ and document good faith efforts in following the six affirmative steps when using loan funds to procure sources of supplies, construction and services.

If the successful bidder plans to subcontract a portion of the project, the bidder must submit to the owner (within 10 days after bid opening) documentation of good faith efforts in following the six affirmative steps taken to utilize small, minority and women's businesses.

These “fair share” objectives are required to be stated in the loan agreement and in the project specifications (**SRF Supplemental General Conditions**).

Implementation of Six Affirmative Steps for Good Faith DBE Solicitation

1. Include qualified MBE/WBE’s on solicitation lists.
 - a) Maintain and update a listing of qualified MBE/WBE’s that can be solicited for supplies, construction and/or services.
 - b) Provide this listing to all interested parties who requested to be placed on the bidder’s mailing list or requested copies of bid or proposal documents
 - c) Contact sources within geographic area of project to identify qualified MBE/WBE’s for placement on MBE/WBE list.
 - d) Check for other MBE/WBE listings such as those utilized by the State Minority Business Office, the Small Business Administration, Minority Business Development Office, EPA Region IV Office of Small and Disadvantaged Business Utilization (OSBDU), or the Alabama Department of Transportation.

2. Assure that MBE/WBE's are solicited whenever they are potential sources.
 - a) Conduct meetings, conferences and follow-ups with MBE/WBE's, small, minority and/or women's business associations, minority media etc., to inform these groups of opportunities to provide supplies, services and construction.
 - b) Conduct pre-bid, pre-solicitation and post-award conferences to ensure that consultants, suppliers and builders solicit MBE/WBE's.
 - c) Provide bidders with listings of qualified MBE/WBE's and establish that a fair share of subagreements be awarded.
 - d) Advertise in general circulation, trade publications, State agency publications of identified MBE/WBE's, minority or women's business focused media, etc., concerning contracting opportunities on your projects. Maintain a list of minority or women's business focused publications that may be used to solicit MBE/WBE's.
 - e) Provide interested MBE/WBE's with adequate information about plans, specifications and other requirements of the proposed projects.
 - f) Provide interested MBE/WBE trade organizations with summaries of bid solicitations.
 - g) Consider notifying MBE/WBE's of future procurement opportunities so that they may establish bidding solicitations and procurement plans.
3. Dividing total requirements, when economically feasible, into small tasks or quantities to permit maximum participation of MBE/WBE's.
 - a) Perform an analysis to identify portions of work that can be divided and performed by qualified MBE/WBE's.
 - b) Scrutinize the elements of the total project to develop economically feasible units of work that are within the bonding range of MBE/WBEs.
 - c) Analyze bid packages to afford MBE/WBEs maximum participation.
4. Use the appropriate services and assistance of:
 - a) the Office of Small and Minority Business Assistance in the Alabama Development Office
 - b) the Minority Business Development Centers
 - c) the Alabama Department of Transportation (for WBEs)
 - d) the Small Business Association
5. Establish delivery schedules, within the requirements of the work permit, which will encourage participation of MBE/WBEs.
 - a) Consider lead times and scheduling requirements often needed by MBE/WBE firms.
 - b) Develop realistic delivery schedules, which may provide for greater MBE/WBE participation.
6. Require each contractor to take the affirmative steps of items 1-5 above in procuring subcontractors.

Use the services of outreach programs sponsored by the Minority Business Development Agency and/or the Small Business Association to recruit bona fide firms for placement on MBE/WBE bidder's lists and to assist these firms in the development of bid packaging.

Seek out Minority Business Development Centers (MBDCs) to assist you in identifying MBE/WBEs for potential work opportunities on your projects.

Note: The construction completion date should be selected carefully, as loan repayment will begin immediately thereafter. Please contact the SRF Section if you have any questions.

Additional Financial Information

INSTRUCTIONS:

1. For “Systems owned by Towns, Cities, or Counties” where the security for the SRF loan will be a general obligation pledge of the Loan Recipient, please complete Part I only.
2. For “Systems owned by Towns, Cities or Counties” where the security for the SRF loan will be a pledge of revenues of the water and/or sewer system of the Loan Recipient, please complete Part II only.
3. For “Systems owned by Boards, Authorities or other public corporations” please complete Part III only.

Part I – Systems Owned by Towns, Cities or Counties (General Obligation Pledge)

A. Financial Information

1. The last three years financial statements. Any unaudited statements as they become available.
2. Please enclose final official statements for any bond issues completed by the Loan Recipient the past two years.
3. Please provide a list of all currently outstanding general obligation indebtedness, including the title of the issue, the series designation, the date of the issue, the original principal amount of the debt, and the date of final maturity of the debt.
4. If not provided in the Loan Recipient’s audited financial statements, please provide debt service requirements for total outstanding general obligation indebtedness on a yearly basis for all years in which debt service is currently payable.
5. Ad valorem tax rates currently levied on property within the jurisdiction of the Loan Recipient, broken down by millage rate per taxing authority (i.e., the state, county, city and any special assessments).
6. The top ten ad valorem taxpayers of the Loan Recipient for previous year and the amount of taxes paid by each.
7. The amount of ad valorem tax collected by the Loan Recipient for the past five years.
8. Total collections of the sales and use tax collected by the Loan Recipient for the the past five fiscal years.
9. Business tax receipts collected by the Loan Recipient for the past five years.
10. Current and proposed water and/or sewer rate schedules.

Demographic Information

1. A one paragraph description of the location of the Loan Recipient and governing structure.
2. Please provide a brief description of the transportation system, the elementary and secondary education systems and the health services provided in the Loan Recipient’s service area.
3. Population of the Loan Recipient as reported by the Census Bureau for the last two surveys available.
4. Please list the major employers for the Loan Recipient, broken out by industry, products and number of employees.

5. WATER & SEWER ACCOUNT INFORMATION

| | 20__ | 20__ | 20__ | 20__ | 20__ |
|-----------------------|------|------|------|------|------|
| No. of water accounts | | | | | |
| No. of sewer accounts | | | | | |

6. PRIMARY CUSTOMERS - For those customers (if any) that exceed 2% of total operating revenue for the water and/or sewer system.

| Name of Customer | Industry/Field | FY20__ Annual Water Revenue | FY20__ Annual Sewer Revenue |

| | | | |
| | | | |

7. WATER USAGE

| | 20__ | 20__ | 20__ | 20__ | 20__ |
|----------------------------|------|------|------|------|------|
| Total Production (gallons) | | | | | |
| Daily Maximum (gallons) | | | | | |
| Daily Average (gallons) | | | | | |

8. SEWER SYSTEM (if appropriate)

| | 20__ | 20__ | 20__ | 20__ | 20__ |
|-----------------------|------|------|------|------|------|
| Average Daily Flow | | | | | |
| Total Gallons Treated | | | | | |

Part II – Systems Owned by Towns, Cities or Counties (Revenue Pledge)

A. Financial Information:

1. The last three years financial statements. Any unaudited statements as they become available.
2. Please enclose final official statements for any bond issues completed by the Loan Recipient the past two years.
3. Please enclose the master trust indenture of the Loan Recipient.
4. Please provide a list of all currently outstanding revenue obligations, including the title of the issue, the series designation, the date of the issue, the original principal amount of the debt and the date of final maturity of the issue.
5. If not provided in the financial statements, please provide debt service requirements for total outstanding indebtedness of the Loan Recipient payable from revenues of the waste and/or sewer system on a yearly basis for all years in which debt service is currently payable.
6. Ad valorem tax rates currently levied on property within the jurisdiction of the Loan Recipient, broken down by millage rate per taxing authority (i.e., the state, county, and city and any special assessments).
7. Information furnished by the County Tax Assessor's office as to the assessed value of taxable properties (including motor vehicles) located within the jurisdiction of the Loan Recipient for the past five fiscal years.
8. Current and proposed water and/or sewer rate schedules.

B. Demographic Information:

1. A one paragraph description of the location of the Loan Recipient and its governing structure.
2. A brief description of the Project.
3. Population of the Loan Recipient, as reported by the Census Bureau for the last two surveys available.
4. A brief description of the assets owned by the Loan Recipient that comprises its water and/or sewer system.

5. WATER & SEWER ACCOUNT INFORMATION

| | 20__ | 20__ | 20__ | 20__ | 20__ |
|-----------------------|------|------|------|------|------|
| No. of water accounts | | | | | |
| No. of sewer accounts | | | | | |

6. PRIMARY CUSTOMERS - For those customers (if any) that exceed 2% of total operating revenue for the water and/or sewer system.

| Name of Customer | Industry/Field | FY20__ Annual Water Revenue | FY20__ Annual Sewer Revenue |
|------------------|----------------|-----------------------------|-----------------------------|
| | | | |
| | | | |
| | | | |

7. WATER USAGE

| | 20__ | 20__ | 20__ | 20__ | 20__ |
|----------------------------|------|------|------|------|------|
| Total Production (gallons) | | | | | |
| Daily Maximum (gallons) | | | | | |
| Daily Average (gallons) | | | | | |

8. SEWER SYSTEM (if appropriate)

| | 20__ | 20__ | 20__ | 20__ | 20__ |
|-----------------------|------|------|------|------|------|
| Average Daily Flow | | | | | |
| Total Gallons Treated | | | | | |

Part III – Systems Owned by Boards, Authorities or Other Public Corporations

A. Financial Information

1. The last three years financial statements. Any unaudited statements as they become available.
2. Please enclose final official statements for any bond issues completed by the Loan Recipient the past two years.
3. Please provide a list of all currently outstanding debt of the Loan Recipient, including the title of the issue, the series designation, the date of the issue, the original principal amount of the debt and the date of final maturity of the issue.
4. Current and proposed water and/sewer rate schedules.

B. Demographic Information

5. A one paragraph description of the area served by the Loan Recipient and the services provided by the Loan Recipient.
6. A brief description of the Project.
7. A brief description of the assets owned by the Loan Recipient that comprise its water and/or sewer system.

8. WATER & SEWER ACCOUNT INFORMATION

| | 20__ | 20__ | 20__ | 20__ | 20__ |
|-----------------------|------|------|------|------|------|
| No. of water accounts | | | | | |
| No. of sewer accounts | | | | | |

9. PRIMARY CUSTOMERS - For those customers (if any) that exceed 2% of total operating revenue for the water and/or sewer system.

| Name of Customer | Industry/Field | FY20__ Annual Water Revenue | FY20__ Annual Sewer Revenue |
|------------------|----------------|-----------------------------|-----------------------------|
| | | | |
| | | | |
| | | | |

10. WATER USAGE

| | 20__ | 20__ | 20__ | 20__ | 20__ |
|----------------------------|------|------|------|------|------|
| Total Production (gallons) | | | | | |
| Daily Maximum (gallons) | | | | | |
| Daily Average (gallons) | | | | | |

11. SEWER SYSTEM (if appropriate)

| | 20__ | 20__ | 20__ | 20__ | 20__ |
|-----------------------|------|------|------|------|------|
| Average Daily Flow | | | | | |
| Total Gallons Treated | | | | | |

Environmental Information Document Outline:

The Applicant must prepare an **Environmental Information Document (EID)** to support DWSRF funding for the proposed water treatment/distribution works. The EID describes and evaluates the environmental impacts of the feasible alternatives of which there should be, as a minimum, **at least four:** the chosen alternative, no action, and two additional alternatives. Furthermore, the alternatives should be substantially different in scope and/or placement and should be thoroughly compared/contrasted within the framework of the following guidelines.

Prior to preparation of the EID, the Applicant should obtain concurrence for the proposed project from the Alabama Historical Commission (AHC), the U. S. Fish and Wildlife Service (rare and endangered species protection), the US Army Corps of Engineers (floodplain management, floodway management, wetlands, Section 404 permits, dredge and fill, structures placed in navigable waterways), the Tennessee Valley Authority (TVA, where applicable), the Alabama Power Company (where applicable), ADECA's Office of Water Resources (new wells and surface sources) and the Regional Planning Agency. Written concurrence from these entities must be attached to the application. **COMPLETION OF THE ENVIRONMENTAL REVIEW MAY NOT OCCUR UNTIL SUCH CONCURRENCE LETTERS ARE SUBMITTED.**

Included in the environmental review process is public participation culminating in a public meeting, which presents the proposed project to the public and includes discussion of both environmental and financial impacts. Minutes of the public meeting, with proof(s) of advertising and a sign-in sheet of attendees must be included as a part of the EID. The public meeting should be conducted prior to submission of the DWSRF application.

The EID shall be prepared according to the following outline:

A. Existing Environment.

1. Location of the Project Area(s).
 - a. With relation to the City/Town/Service Area.
 - b. With relation to the County and State borders.
 - c. In relation to the nearest metropolitan statistical area (MSA).
 - d. Plotted on the most current USGS Quadrangle Map (with the name, number, scale and revised date of the quadrangle used).

B. Existing Facilities.

1. Name, type and compliance status of all water sources that will be affected by or will supply the project area. For surface sources, identify the source watershed
2. Population served, population to be served by this project, and remaining population without potable water.
3. Condition of existing water treatment/distribution system.

C. Need for Proposed Facilities.

Note: projects that primarily intended to serve growth are not eligible for DWSRF funding.

1. Documentation of public health problems that will be corrected by the proposed project.
 - a. From the local public health agency, concerned citizens, ADEM, other governmental agencies, or the Consulting Engineer. (Examples include private well contamination, water source quality, etc.)
2. Lack of treatment capacity.
 - a. Include need(s) to increase capacity and a discussion of historical (seasonal) flow data.
3. Lack of treatment capability/quality, to include:
 - a. Discussion of permit violations to which the City/Town/Board/Authority is a party.
 - b. Discussion of any Administrative or Consent Order to which the City/Town/Board/Authority is a party.

D. Proposed Facilities and Proposed Funding.

1. Proposed Facilities

- a. Water treatment /distribution facilities to be constructed/upgraded/modified/affected.
 - I. Average daily flow for both current and design years.
 - II. Expected daily peak and minimum flow for both current and design years.
 - III. Expected water quality from new/upgraded facilities.
 - IV. Identify the surface or groundwater source to be developed.
 - V. Identify any land that must be obtained in order to construct/modify facilities.
 - VI. For water treatment facilities, identify the method of sludge disposal (if applicable) and any items to satisfactorily carry out the disposal (purchase more land, new permits for landfilling, etc.)
- b. Include Vicinity Map(s) that
 - I. Clearly show(s) the project area(s) in relation to nearby roads and streets.
 - II. Include(s) a North Arrow and Graphical Scale.
 - III. Clearly show(s) the location of the project area(s) by coordinates (State Plane Coordinates NAD83 (92 Corrections) or Metes and Bounds tied to the Rectangular Grid system of the State of Alabama or UTM Coordinates.

2. Proposed Funding Source(s)

- a. Funding source(s), status and amount(s).

E. Alternative Analysis.

1. Discussion of all feasible alternatives, to include:

- a. Alternative processes and/or locations considered.
- b. Alternative distribution/storage systems.
- c. Leakage reduction measures.
- d. Interconnections with nearby water systems.
- e. Physical, legal, or institutional constraints.
- f. Regulatory requirements.
- g. Capital and operations and maintenance (O&M) costs.
- h. Significant, irreversible, and/or unavoidable environmental impacts.

2. Choosing an alternative.

- a. Must include the "no action" option and why it was not chosen.
- b. Must clearly indicate the chosen alternative and why it has been chosen.
- c. Must provide an in depth (E 1 a – i) discussion of AT LEAST two other alternatives (in addition to the two alternatives discussed in E 2 a & b).

F. Physical Data. (See Part G, Section 11 for helpful links)

1. Description of the Topography of the City/Town and of the specific site area(s).
2. Description of the Geology of the City/Town and of the specific site area(s).
3. Hydrology of the City/Town and of the specific site area(s).
4. Climate and Precipitation of the City/Town to include:
 - a. Average annual temperature.
 - b. Average annual range of temperatures.
 - c. Average annual rainfall.
 - d. Average snowfall (if applicable).
 - e. Length of the growing season with average date of the first and last freeze.
 - f. Direction and Speed of prevailing winds for summer and winter.

5. Floodplains, floodways, and wetlands impact(s).
 - a. The project area(s) must be clearly located on the applicable Flood Insurance Rate Map (FIRM) with Panel Name, Panel Number, Date and graphical scale provided.
 - b. The project area(s) must be shown in relation to all activities within the project area, including temporary construction easements, and any permanent or man-made features in order to facilitate a clear understanding of the project location.
 - c. The potential effect of the project on these areas should be examined and discussed in detail.
 - d. Any chosen alternative that affects a floodplain, floodway and/or wetland must include:
 - I. A description of alterations to landforms, streams, and natural drainage patterns within the floodplain/floodway/wetland and their effect on local watercourses and the project.
 - II. A discussion of why the alternative is proposed in the floodway/floodplain/wetland.
 - III. A discussion of how the alternative will conform to applicable Federal, State, and/or local floodplain/floodway/wetland protection standards.
 - IV. A discussion of how the alternative is designed to minimize the potential harm to the floodplain/floodway/wetland.
 - V. Include a map clearly showing the relationship between the floodplain/floodway/wetland and all construction activities with contours of existing and finished grades and flood elevation(s).
6. Description of water mains to be constructed/replaced.
 - a. Size, type and classification of pipe(s).
 - b. Indicate bore and excavation methods, especially as they relate to existing watercourses, flood plains, floodways, and/or wetlands.
 - c. Demonstrate that the water source/storage system has capacity to supply additional flow, if any.
 - d. If rehabilitation of water lines will take place clearly indicate the type of repair(s) and the corresponding segment(s) of pipe.
 - e. Clearly delineate the location and type of construction/rehabilitation on a vicinity map that is of sufficient scale and size to be legible and that clearly relates the work to the surrounding environment (i.e. show all watercourses, structures, roads and utilities that are visible).

G. Environmental Consequences and Mitigative Measures.

1. Historical and Archaeological Features.
 - a. Include the concurrence/nonconcurrence letter from the Alabama Historical Commission (AHC).
 - b. Discuss any comments made by AHC and the effect on the proposed project.
 - c. Include a copy of any archaeological survey(s) performed for the AHC.
 - d. Insure that all contracts are awarded with the stipulation that "Should previously undetected cultural resources be encountered during project activities, work shall cease and the Alabama Historical Commission shall be contacted immediately."
2. Endangered Species and Critical Habitat.
 - a. Include the concurrence/nonconcurrence letter from the U. S. Fish and Wildlife Service.
 - b. Discuss any comments made by the U. S. Fish and Wildlife Service and the effect on the proposed project.
 - c. Include a copy of any survey(s) performed for the U. S. Fish and Wildlife Service.
 - d. Insure that all contracts are awarded with required Best Management Practices (BMP) plans, guidelines, and responsible entity.
3. Floodplain, Floodway, and Wetlands.
 - a. Include the concurrence/nonconcurrence letter from the U. S. Army, Corps of Engineers.
 - b. Discuss any comments made by the U. S. Army, Corps of Engineers and the effect on the proposed project.
4. Tennessee Valley Authority (if applicable).
 - a. Include the concurrence/nonconcurrence letter from the Tennessee Valley Authority.
 - b. Discuss any comments made by the Tennessee Valley Authority and the effect on the proposed project.
5. Alabama Power Company (if applicable).

- a. Include the concurrence/nonconcurrence letter from the Alabama Power Company.
 - b. Discuss any comments made by the Alabama Power Company and the effect on the proposed project.
6. Regional Planning Agency.
- a. Include the concurrence/nonconcurrence letter from the Regional Planning Agency.
 - b. Discuss any comments made by the Regional Planning Agency and the effect on the proposed project.
7. Environmental Justice.
- a. Environmental justice is the fair treatment and meaningful involvement of all people, regardless of race, color, national origin, or income, with respect to the development, implementation, and enforcement of environmental laws, regulations and policies. Fair treatment means that no group of people, including a racial, ethnic, or socioeconomic group should bear a disproportionate share of the negative environmental consequences resulting from industrial, municipal, and commercial operations or the execution of federal, state, local, and tribal programs and policies.
 - b. Discuss the impacts of the project on Environmental Justice areas affected.
 - c. Ensure that public participation and/or notification is enhanced if Environmental Justice areas are affected by the project.
8. Pollution from Construction Activities.
- a. Noise causes, intensity, and duration.
 - b. Erosion and siltation causes, duration and mitigation plan.
 - c. Dust causes, intensity, and duration.
 - d. Best Management Practices (BMP) and implementation plan
 - e. Impact on Public Parks and/or Prime Agricultural Land.
 - f. Impact on 303d listed streams.
 - g. Impacts from stream crossings.
 - h. If land clearing is involved, discuss the precautionary methods to be taken in order to protect the area environment from the use of herbicides, defoliants, blasting, cutting, and/or burning.
 - i. Specify the final disposal method for soil and vegetative spoil.
 - j. If facilities are to be abandoned, discuss what will be done with the abandoned structures and/or land.
9. Public Participation.
- a. The Public Meeting must be held before submittal of this application. Please contact the appropriate SRF staff engineer at ADEM to find out if the project will affect an Environmental Justice area(s).
 - b. Proof of advertising. Advertisement should run at least once per week for four consecutive weeks in the newspaper that serves the affected area.
 - c. If Environmental Justice areas are affected by the project then the advertisement requirement is expanded to ensure that the affected populations are made aware of the project and have every opportunity to respond. Examples of additional advertisements are:
 - I. Mailings to each residence affected (provide affidavit of mailing and a copy of the letter used as an addendum to this document).
 - II. Running an ad on a radio or television station that serves the affected community (provide an affidavit and transcript of the ad).
 - III. Advertise in a newspaper or other periodical that serves the affected community (provide a publishers affidavit and a copy of the ad).
 - IV. The Public Meeting should be held after 5:00 P.M. (local time) and should be in a building that is easily found and highly accessible. A sign-in sheet should be made available to everyone, and should be included as an addendum to this document.
 - d. Maintain at least one copy of the EID in a public facility (the City/Town Hall, the Board/Authority Office, the local Library, the place of the meeting or the local Post Office) for public review from the first day in which any advertisement is published through the time of the public meeting. The advertisement(s) should inform the public of the existence of this document, the location of this document during business hours, and that this document is for public review.
 - e. The agenda should follow the following format.
 - I. The Representative should be introduced and provide an overview of the project.
 - II. The selection of the funding source(s) should be discussed.
 - III. The new rate structure (if applicable) and fee structure (if applicable) should be discussed.

- IV. A period of question and answer should be allowed after all discussion in complete.
- f. Provide a copy of the minutes of the meeting and a list of the questions and answers as an addendum to this document.

10. Internet Links.
